# ***How Will We Get There?***

- Overview of the history of philosophy, theology and Biblical studies highlighting **lessons learned**
- The **Biblical world view** as **foundational** for our understanding of the world – that **rock solid foundation** we were seeking above

# *Presuppositions*

The Bible, God's Word, came by the will of God rather than by the will of man

The Bible is its own interpreter

# *Terminology*

- Rationalism
- Empiricism
- Existentialism
- Pragmatism
- Materialism
- Ectceteraism

# ***Early Church*** ***2<sup>nd</sup>-12<sup>th</sup> centuries***

- The early church was dominated by the philosophy or the world view of Neo-Platonism. This philosophy was inherited from Greek philosophy, primarily from Plato.

# *Neo-Platonism*

# ***Neo-Platonic Philosophy***

Celestial/Perfect/Eternal Forms

Imperfect/Earthly

Materialization of these forms

3<sup>rd</sup> century

Allegorical Method of Interpretation came from Neo-Platonism through the Jew, Philo

Neo Platonism

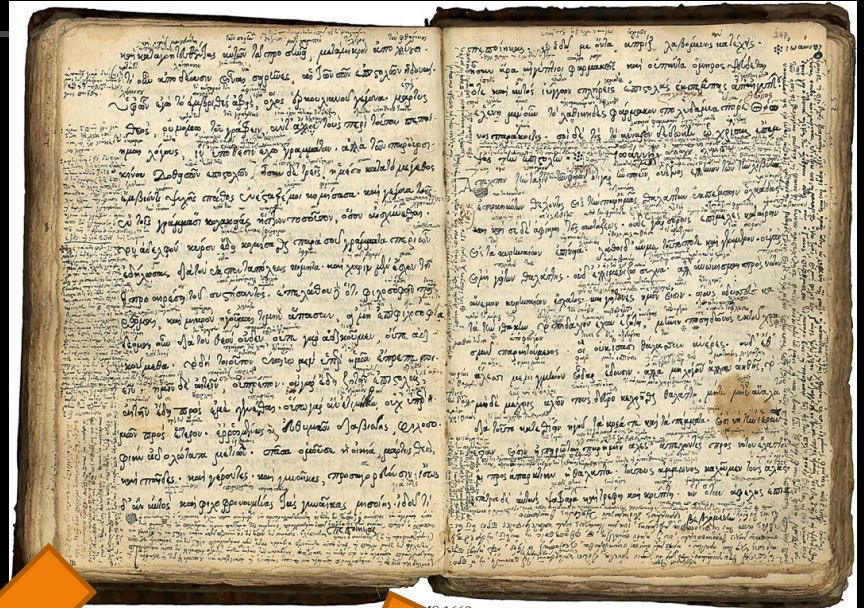

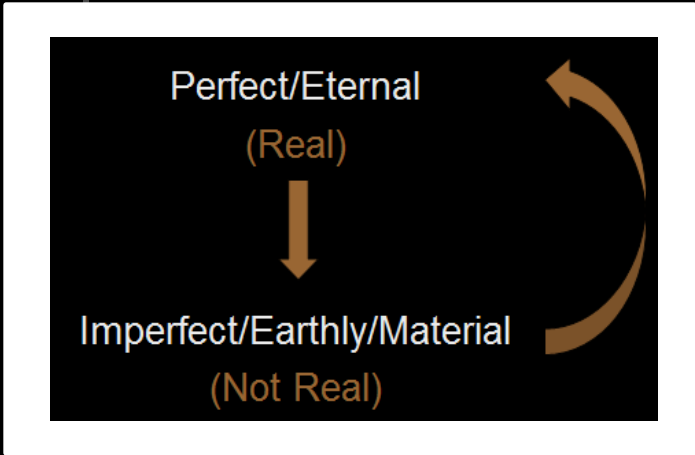

Origen

# *Hermeneutics*

- As we have seen, **Neo-Platonism** held to the **dual concept** of eternal realities and their reflection in earthly forms. This influenced their understanding and **interpretation of literature**. Literature had a literal meaning, but more importantly and often distinctly, an **allegorical interpretation**, the really real.

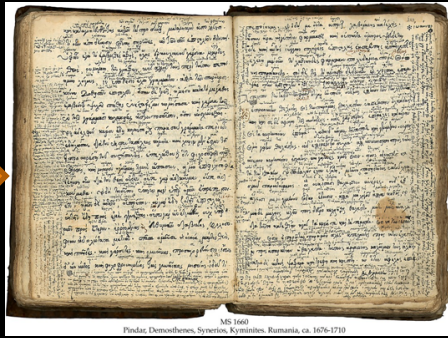

Pindar, Demosthenes, ca. 1660

## *When a literal interpretation was...*

- Unworthy of God
- Impossible (based upon the contemporary thinking of the age)
- Not in harmony with other passages of Scripture

Literal

***An allegorical interpretation  
was demanded***

and/  
or

A stack of approximately 15 grey, rectangular stones is arranged in a pyramid shape on top of a black leather-bound Bible. The Bible is lying flat, and the stones are stacked on its spine. The word "Theology" is written in a large, bold, black font across the center of the stone stack.

# Theology

ZONDERVAN  
**NIV**  
STUDY  
BIBLE

NIV

# *Origen--Lessons Learned*

- Came from Alexandria, a city of Greek culture in Egypt
- Accepted **Neo-Platonic worldview/philosophy** of Alexandria
- The **allegorical method** of interpretation was a **product of Neo-Platonic thinking**
- He used this **external method** and thereby imposed Neo-Platonism on the Bible

# *Origen--Lessons Learned*

- By applying the allegorical methods to the study of scripture, he **imposed the Neo-Platonic worldview** upon scripture. Scripture became a good Neo-Platonic book.
- His **intention was mission**—to reach people where they are, but the **result** was compromise, the baptism of Christianity by a pagan culture, and the obscuration of the Bible.

# Paths to Knowledge of God

*Medieval World*

“If you want to know God,  
look at reality”

# ***Philosophical Arguments for the Existence of God***

The Bible simply assumes the existence of God.

Some theologies of the middle ages attempted to prove His existence.

- These arguments encased God within the philosophy of the age.

# *Anselm*

Reason puts man in touch with the whole order of being and has its own principles of operation. Therefore reason gives a foundation for accepting the existence of God.

- How do we know such a being as God exists?
- By an argument that arises from a definition of God?

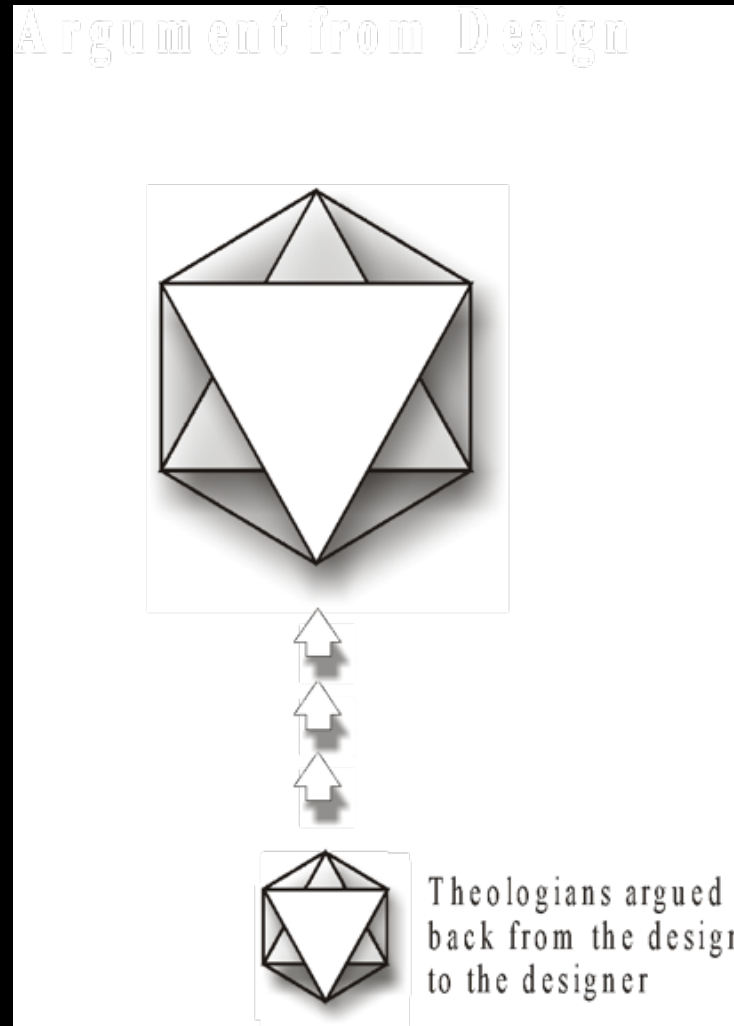

# ***Ontological Argument for Existence of God***

God: a being greater than which  
nothing can be conceived.

# Argument from Design

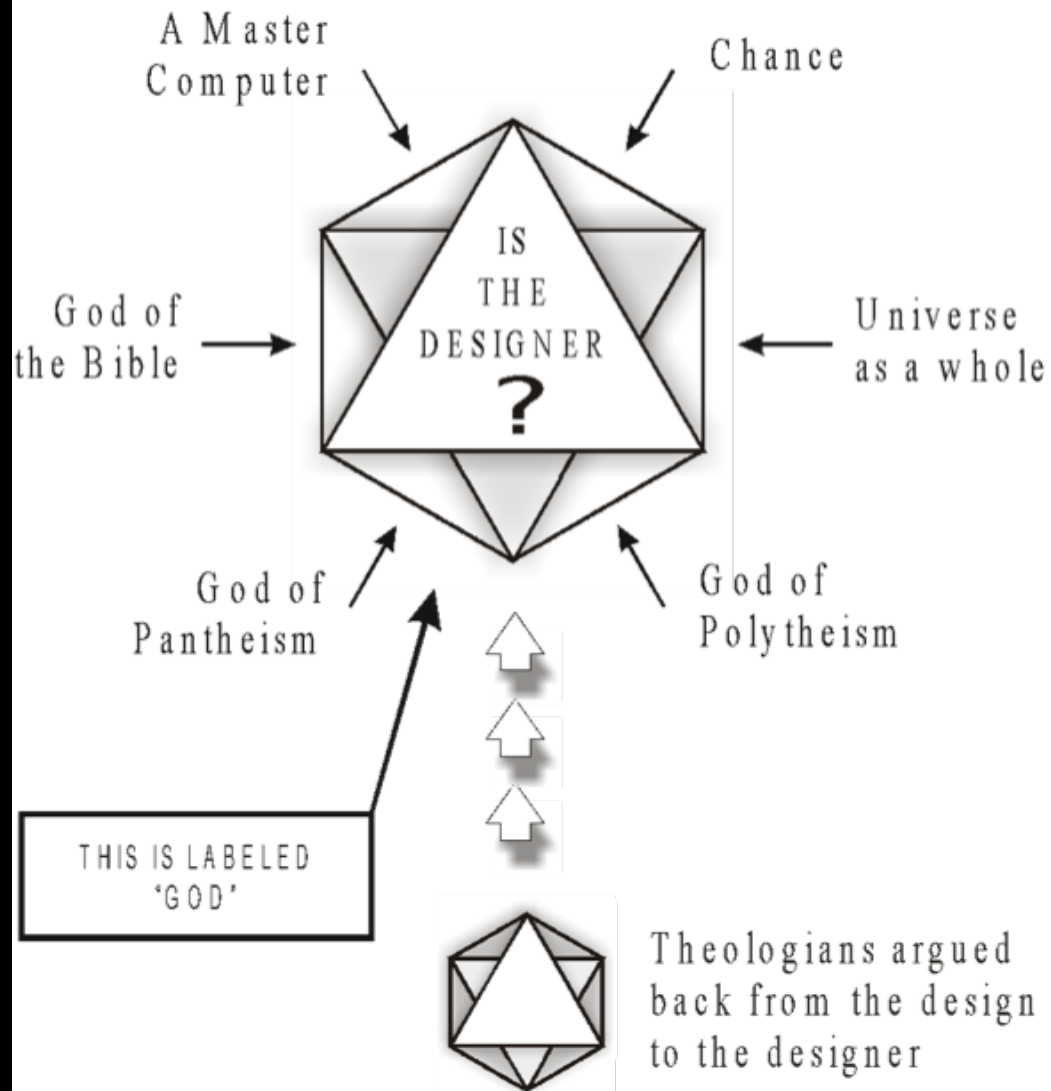

# Argument from Design

Theologians argued  
back from the design  
to the designer

Scripture = the intended starting point

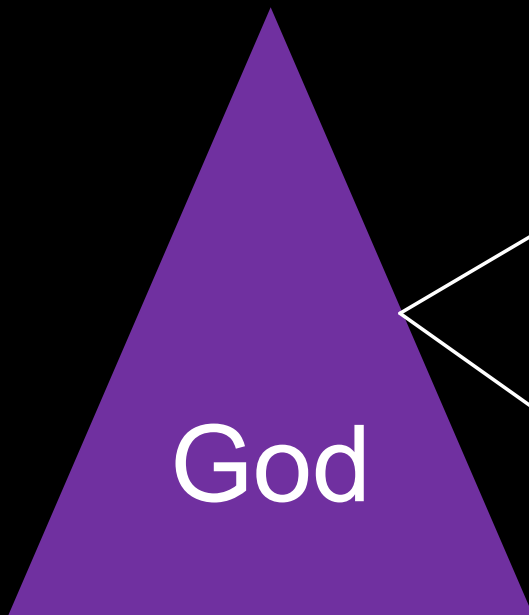

The fundamental propositions of Scripture are the starting point or presuppositions of theological thinking.

```
graph TD; God[God] --> Revelation[Revelation]; God --> NaturalWorld[Natural World];
```

God

Revelation

Natural  
World

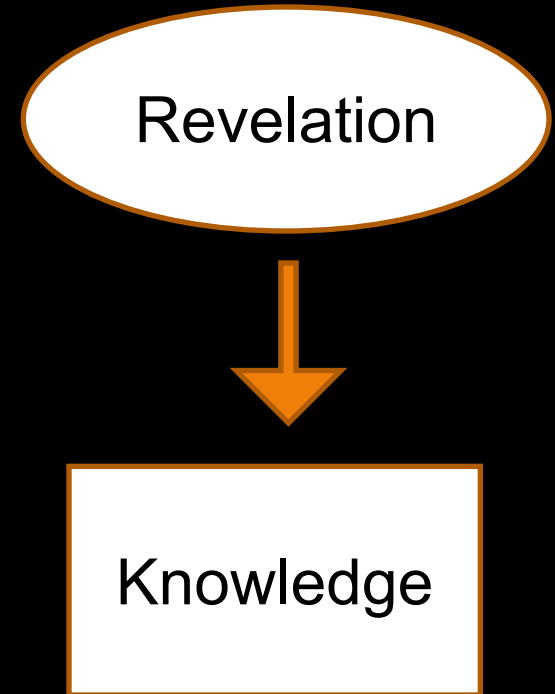

Independent of  
Revelation

What is the relation between knowledge of the natural world and revelation from God?

Both revelation and  
reason bring knowledge  
to mankind.

Revelation is given.

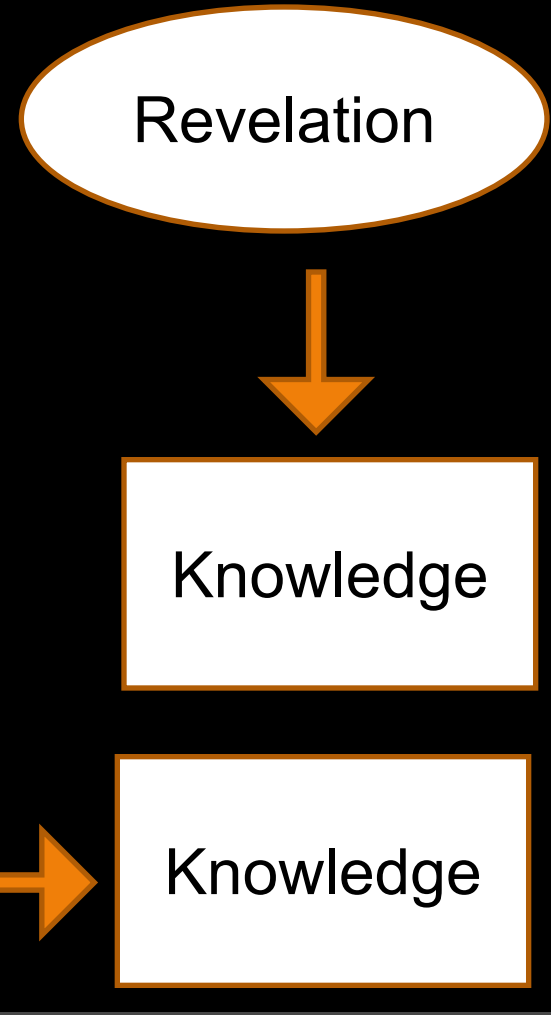

Reason interprets the data of the senses.

Revelation is given in accordance with reason.

Brings man's natural reason to fuller perception.

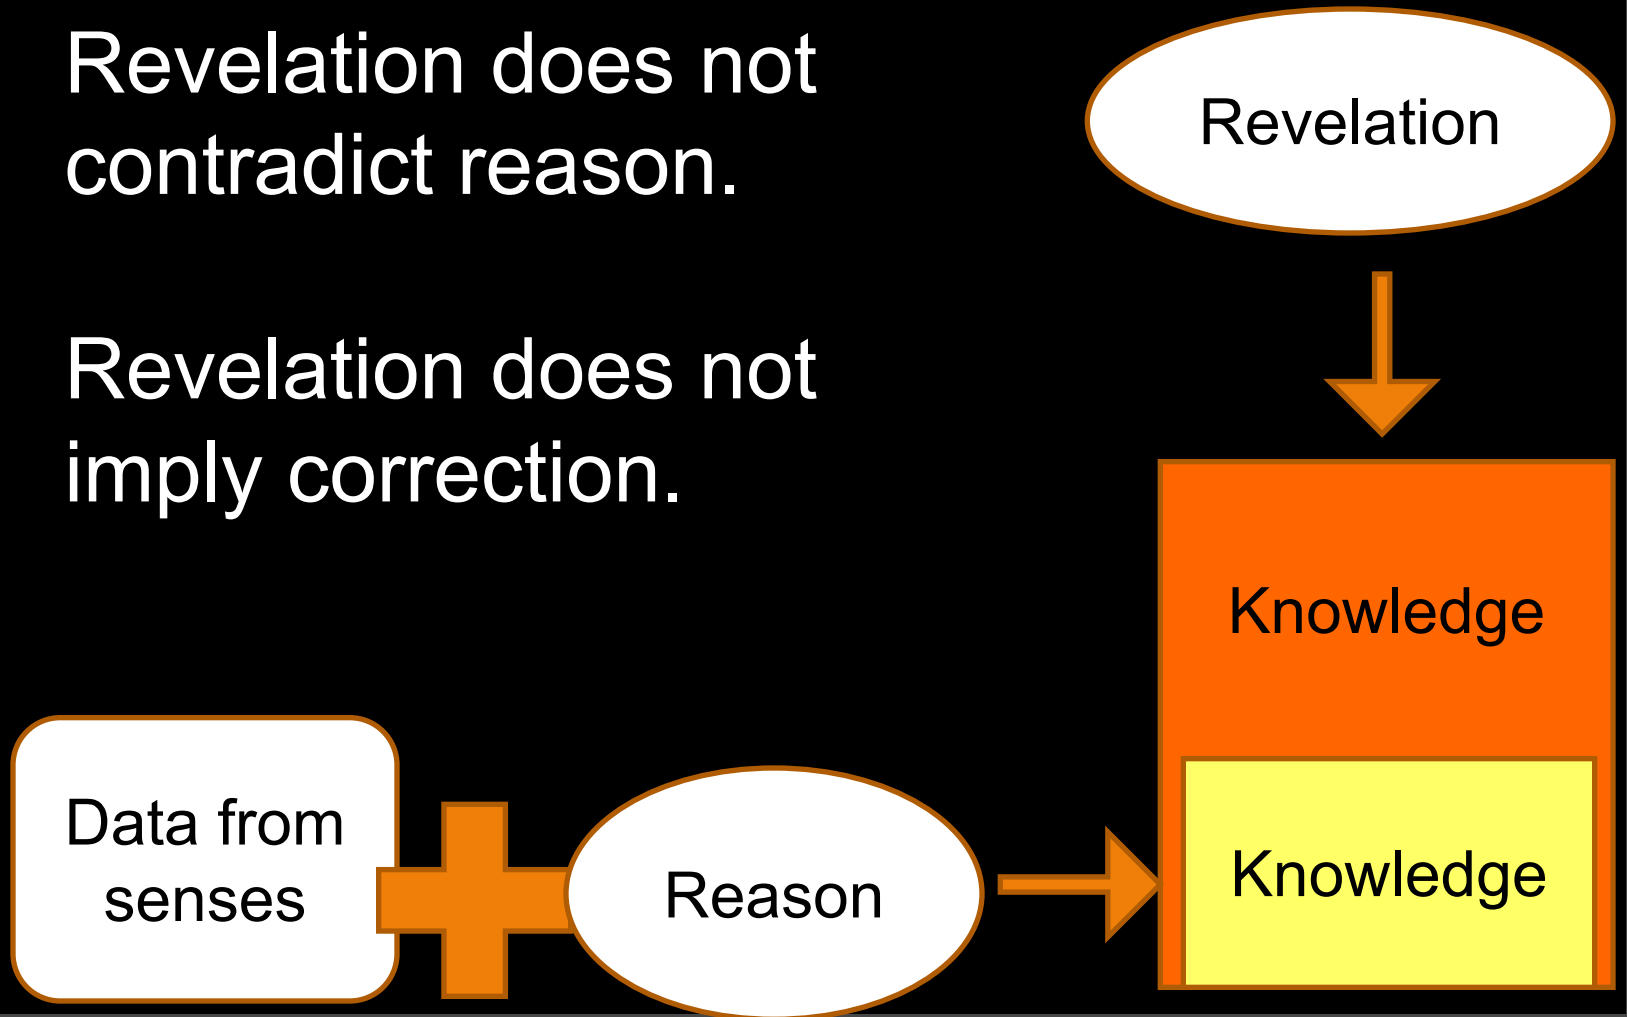

Revelation does not contradict reason.

Revelation does not imply correction.

Revelation does not contradict reason.

Revelation does not imply correction.

# *Cannot be in Conflict*

God's Truth

Revelation

Reason

# *God has given*

- First principles of thought in the natural world
- Articles of faith in the revealed word

Any conflict would mean that God was acting falsely by intending to deceive man.

# *Presuppositions*

- Thus it is presupposed that God as the Creator will operate in accordance with the natural world as interpreted by reason.

# *Presuppositions*

- Therefore, our perception of who God is and how He will act is ultimately determined by our conception of the natural world.

# *Presuppositions*

- Faith does not negate what is brought about by reason.
- Faith presupposes the rational structure.

- Truth is truth wherever it may be found.
- God is the author of truth whether it is in revelation or in the natural world. There can be no contradiction between them.

# THOMISTIC SYNTHESIS

The Relation of the  
Natural World to  
Revelation

TRUTH IS TRUTH  
WHEREVER IT MAY  
BE FOUND.

The senses  
present to the  
mind data from  
the natural world.

DATA OF NATURAL WORLD

# THOMISTIC SYNTHESIS

## The Relation of the Natural World to Revelation

**TRUTH IS TRUTH  
WHEREVER IT MAY  
BE FOUND.**

Reason is adequate and self-sufficient both for obtaining truth in the natural world and for acquiring limited knowledge of the spiritual world.

The senses present to the mind data from the natural world.

# THOMISTIC SYNTHESIS

## The Relation of the Natural World to Revelation

**TRUTH IS TRUTH  
WHEREVER IT MAY  
BE FOUND.**

**MAN ULTIMATELY  
BECOMES THE  
CRITERION FOR  
TRUTH.**

Revelation brings additional knowledge which coheres with that already available in the natural world.

Reason is adequate and self-sufficient both for obtaining truth in the natural world and for acquiring limited knowledge of the spiritual world.

The senses present to the mind data from the natural world.

Revelation, reason and the natural world come from God and are therefore in harmony with each other.

# ***Task of Theology***

- Integration of Faith and Reason

## Scripture

- Provides materials to be interpreted
- Sets the limits to the philosophical system

## Reason

- Establishes the structure within which the content of revelation is expressed
- Gives unity to the system of ideas

# *Reason in Theology*

- Finally, the role of reason in theology is both dominant and determinative.

# *Reason in Theology*

- The new information which is given in revelation is:
  - Integrated with knowledge obtained by reason
  - Interpreted in terms of that knowledge

# *Reason in Theology*

- Revelation does not abrogate the existing thought categories.
- Rather it brings to conclusion the existing lines of thought by allowing reason to provide the structure for theology.

# *Reason in Theology*

- The message of Scripture is not only shaped by the philosophical system of thought but in actuality its content is also changed.

# *Reason in Theology*

- The net effect of using reason as the context in which to structure and interpret revelation transformed the theology of Aquinas into a philosophical system rather than a biblical theology.

# *Aquinas's God*

- Aristotle's Unmoved Mover
- Active  of the Bible

Philosophy of the age

# *Lessons Learned*

- The epistemology of Aristotle was foundational
- It was used as the basis for method in theology
- Theology became an expression of the philosophy of Aristotle

# Early Church and Middle Ages

Reality imposes meaning upon the mind of man. Theologians intended to discover the external world of reality.

The mind of man is the blank piece of film upon which reality is registered

In the middle ages the task of the theologian was to synthesize the truths of the natural world, i.e. Plato and Aristotle, with the truths of the Bible.

The formula was the Bible

**AND**

reason, tradition, church councils, the pope, etc.

The context and the method for studying the Bible came from the natural world.

# *Summary to the Time of the Reformation*

- The Bible

&

- Tradition

- Pope

- Church Councils

- Reason

- Philosophy

- The Natural World

# ***Integration of Faith AND Learning***

- The theology of the middle ages exquisitely developed the method of the integration of faith and learning.
- The Bible **AND** reason, the natural world, the pope, church councils, tradition, etc.
- As we will see, the reformation brought the Bible back to its foundational role.

Scholasticism  
built upon the  
rock
